INDEPENDENT CIRCULAR ARC

● INDEPENDENT CIRCULAR ARC

We want to show you a model of an independent arc model Large enclosed area, minimum height, the biggest advantage of independent circular arc type closure. What you will appreciate is the low-key and elegant lines.

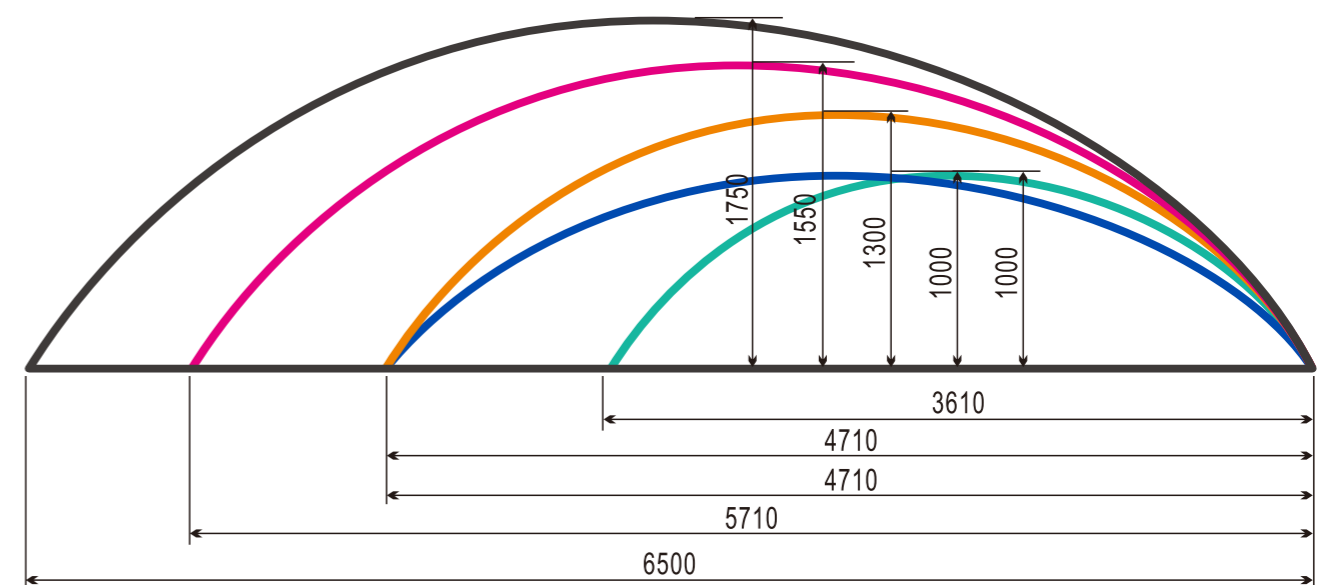

ADVANTAGES

- Goods for immediate dispatch
- Quick and easy installation
- Packaging variability

COMMON COLORS

- Support color customization (Pantone)

INDEPENDENT CIRCULAR BELT FOOT

INDEPENDENT CIRCULAR BELT FOOT

Independent circular belt foot is of uncompromising quality, unique color and durability. The structure is stable. We choose the most appropriate shape size completely according to the customer's site.

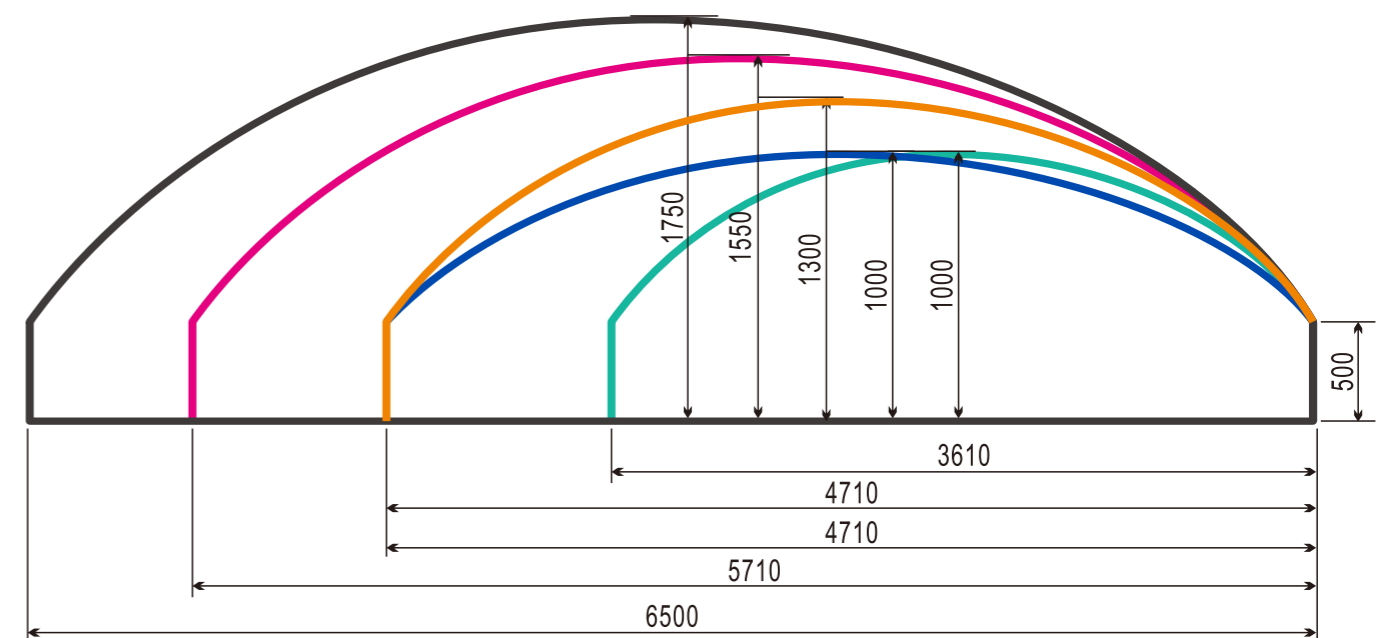

ADVANTAGES

- Goods for immediate dispatch
- Quick and easy installation
- Packaging variability

COMMON COLORS

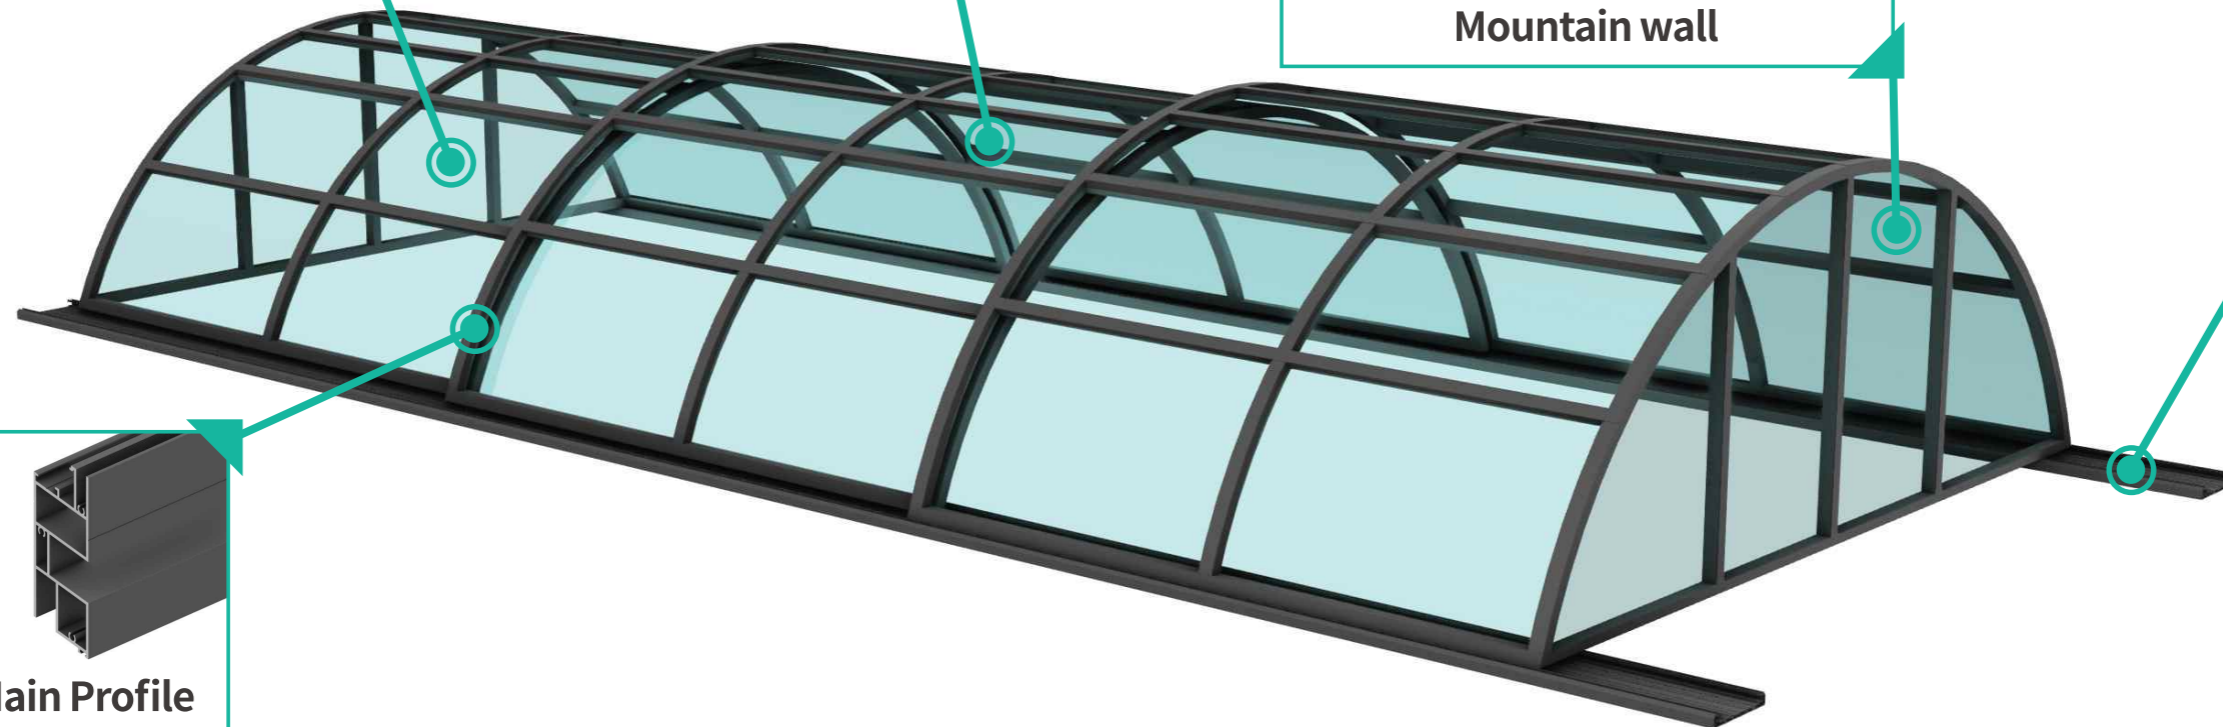

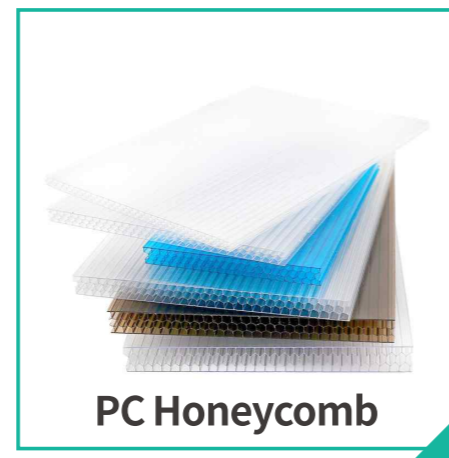

- Support color customization (Pantone)

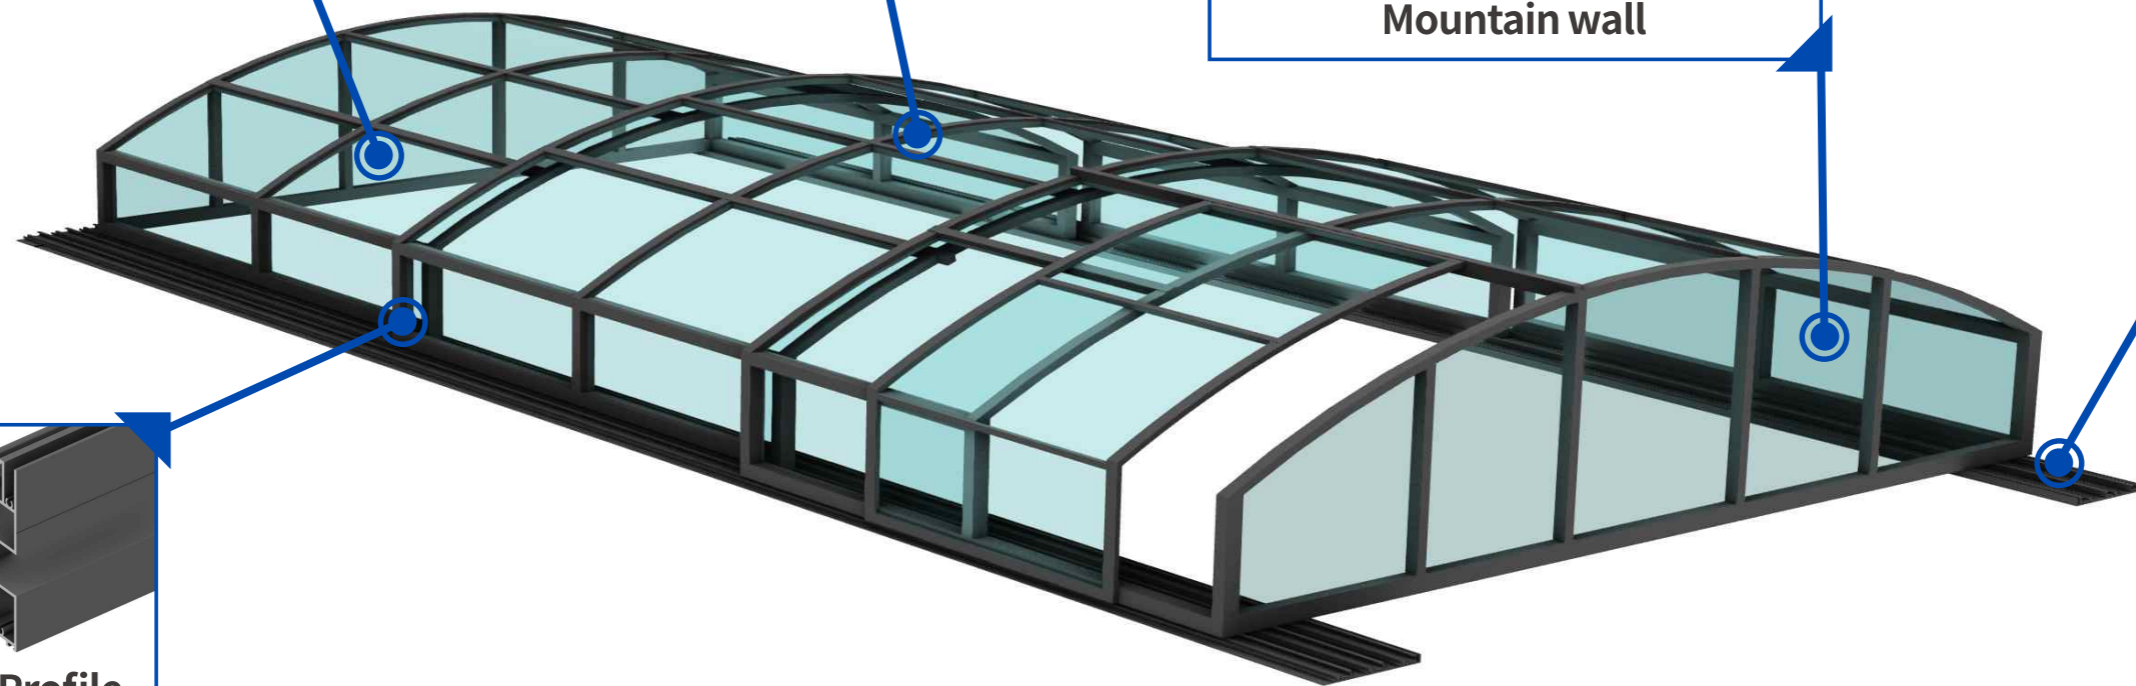

POOL COVER COMPONENTS

- ① Panel - PC board or PC honeycomb board
- ② Main Structure--6063 high-strength extruded aluminum alloy is used, which has strong wind and snow resistance. Fluorocarbon powdercoating can be selected on the surface, which is more weather tight.
- ③ Intelligent system--The wear-resistant roller has a large bearing capacity, easy to slide, it is more laborsaving and silent.
- ④ Door and window system (gable optional)--Aluminum alloy folding doors, sliding doors, and folding doors are available.
- ⑤ EPDM Rubber--The inner and outer triple embedded adhesive seals are waterproof, and waterproof EPDM rubber can effectively improve the sunroom.

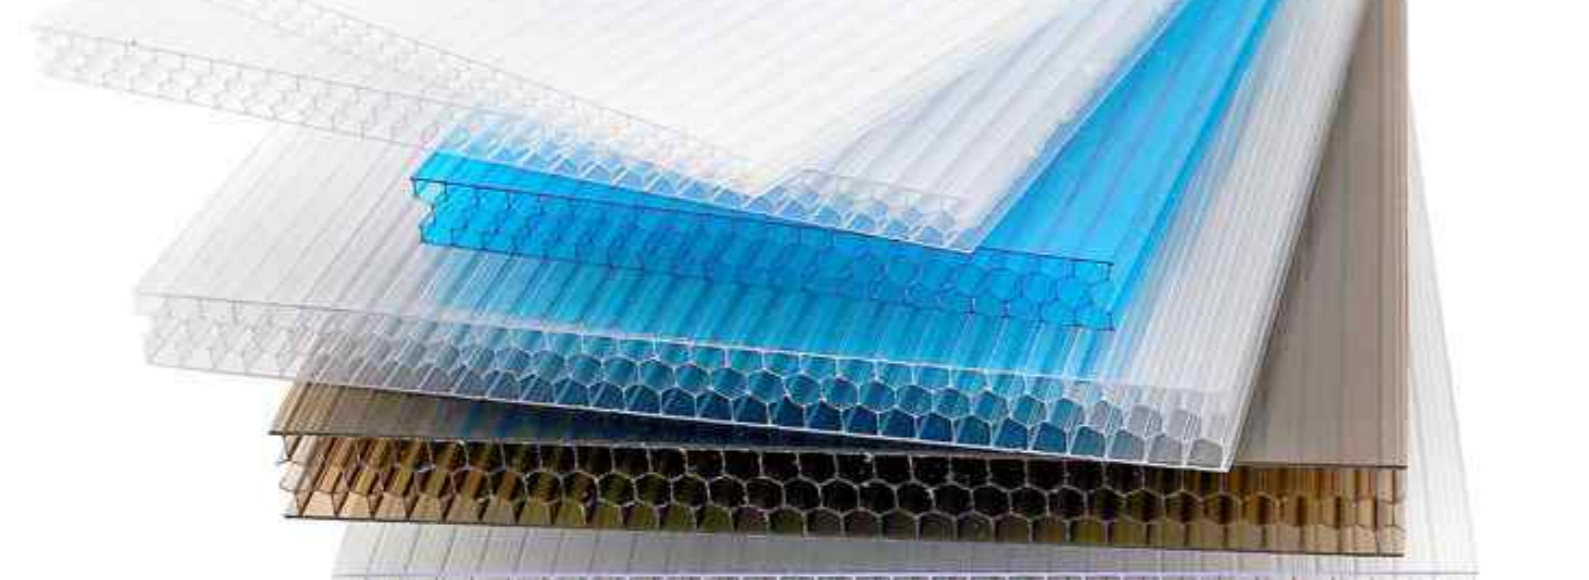

POOL COVER COMPONENTS

- ① Panel - PC board or PC honeycomb board
- ② Main Structure--6063 high-strength extruded aluminum alloy is used, which has strong wind and snow resistance. Fluorocarbon powdercoating can be selected on the surface, which is more weather tight.
- ③ Intelligent system--The wear-resistant roller has a large bearing capacity, easy to slide, it is more laborsaving and silent.
- ④ Door and window system (gable optional)--Aluminum alloy folding doors, sliding doors, and folding doors are available.
- ⑤ EPDM Rubber--The inner and outer triple embedded adhesive seals are waterproof, and waterproof EPDM rubber can effectively improve the sunroom.

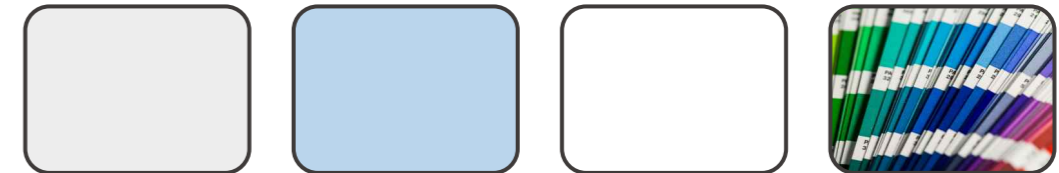

HONEYCOMB ADVANTAGES

● PC HONEYCOMB PERFORMANCE

- ❶ **Light weight:** the specific gravity is only half of that of ordinary glass, and it is not easy to break. It saves time and effort in handling and installation, especially suitable for tall buildings.
- ❷ **Translucency:** colorless transparent sunlight plate can provide excellent transparency and appearance gloss. Colored plate can block the strongest part of sunlight and soften the transmitted light.
- ❸ **Sound insulation performance:** it can effectively reduce noise and is the preferred material for highway sound barrier in the world.
- ❹ **Heat transfer:** it has a thermal conductivity [Kvalue] lower than that of ordinary glass and other plastics, which greatly reduces the heat loss. It is used in buildings with heating equipment and is an environmental protection material.

COMMON COLORS

- A variety of colors can be selected. Please consult the manufacturer's hotline for details

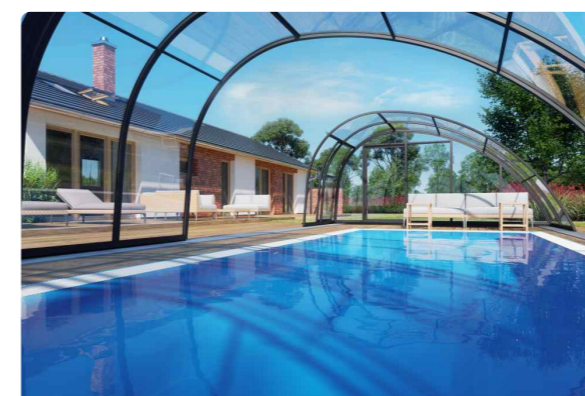

❺ **Impact resistance:** PC is the most correct kind of impact resistance among thermoplastics. The sunlight board made of PC can maintain good impact resistance for a long time in a relatively wide temperature range, and has the reputation of "non broken glass" and "sound steel".

❻ **Anti condensation:** under normal circumstances, when the outdoor temperature is 0 °C and the indoor temperature is 23 °C, as long as the indoor relative humidity is less than 80%, the surface of the material will not condense.

❼ **Flame retardant and fire prevention:** it has good fire resistance, and has been tested by the national fire prevention building materials Supervision Center, reaching the fire-resistant B I level according to the GB8624-1 997 standard. The burning point of the plate itself is 630°C, and the combustion process will not produce toxic gases, will not contribute to the spread of the fire, and will self extinguish after leaving the fire.

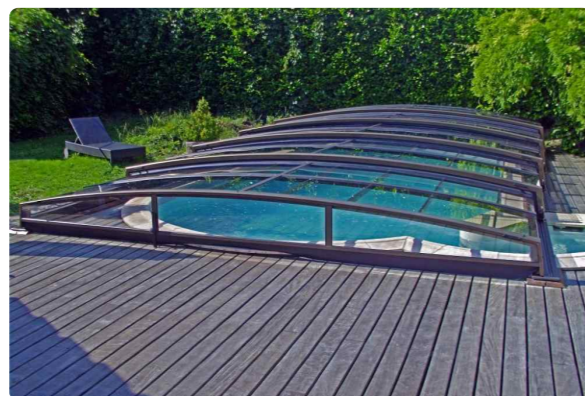

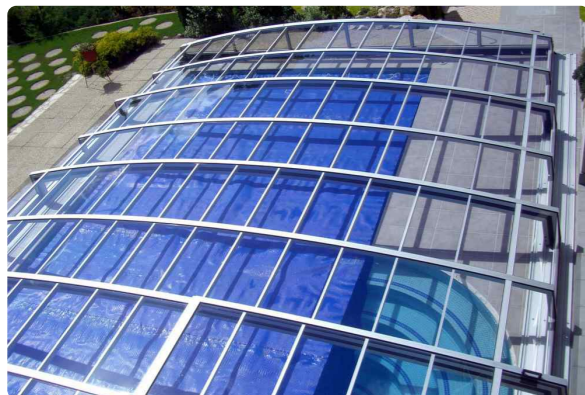

❽ **Chemical resistance:** it can resist the erosion of various organic acids, inorganic acids, vegetable oils, neutral salt solutions, fatty acids and alcohol at room temperature. Sunlight plate is soluble in chloroalkanes and slightly soluble in aromatic meridians and ketones, which can be destroyed by alkali and will swell in Tianna water and methanol.

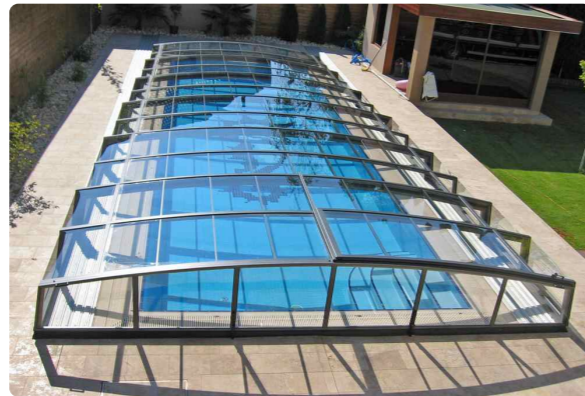

❾ Cold bending installation, heat and cold resistance.

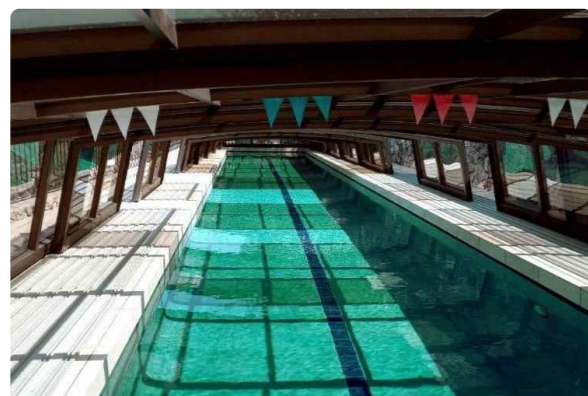

PROJECT CASES

JOIN US DOMINANCE

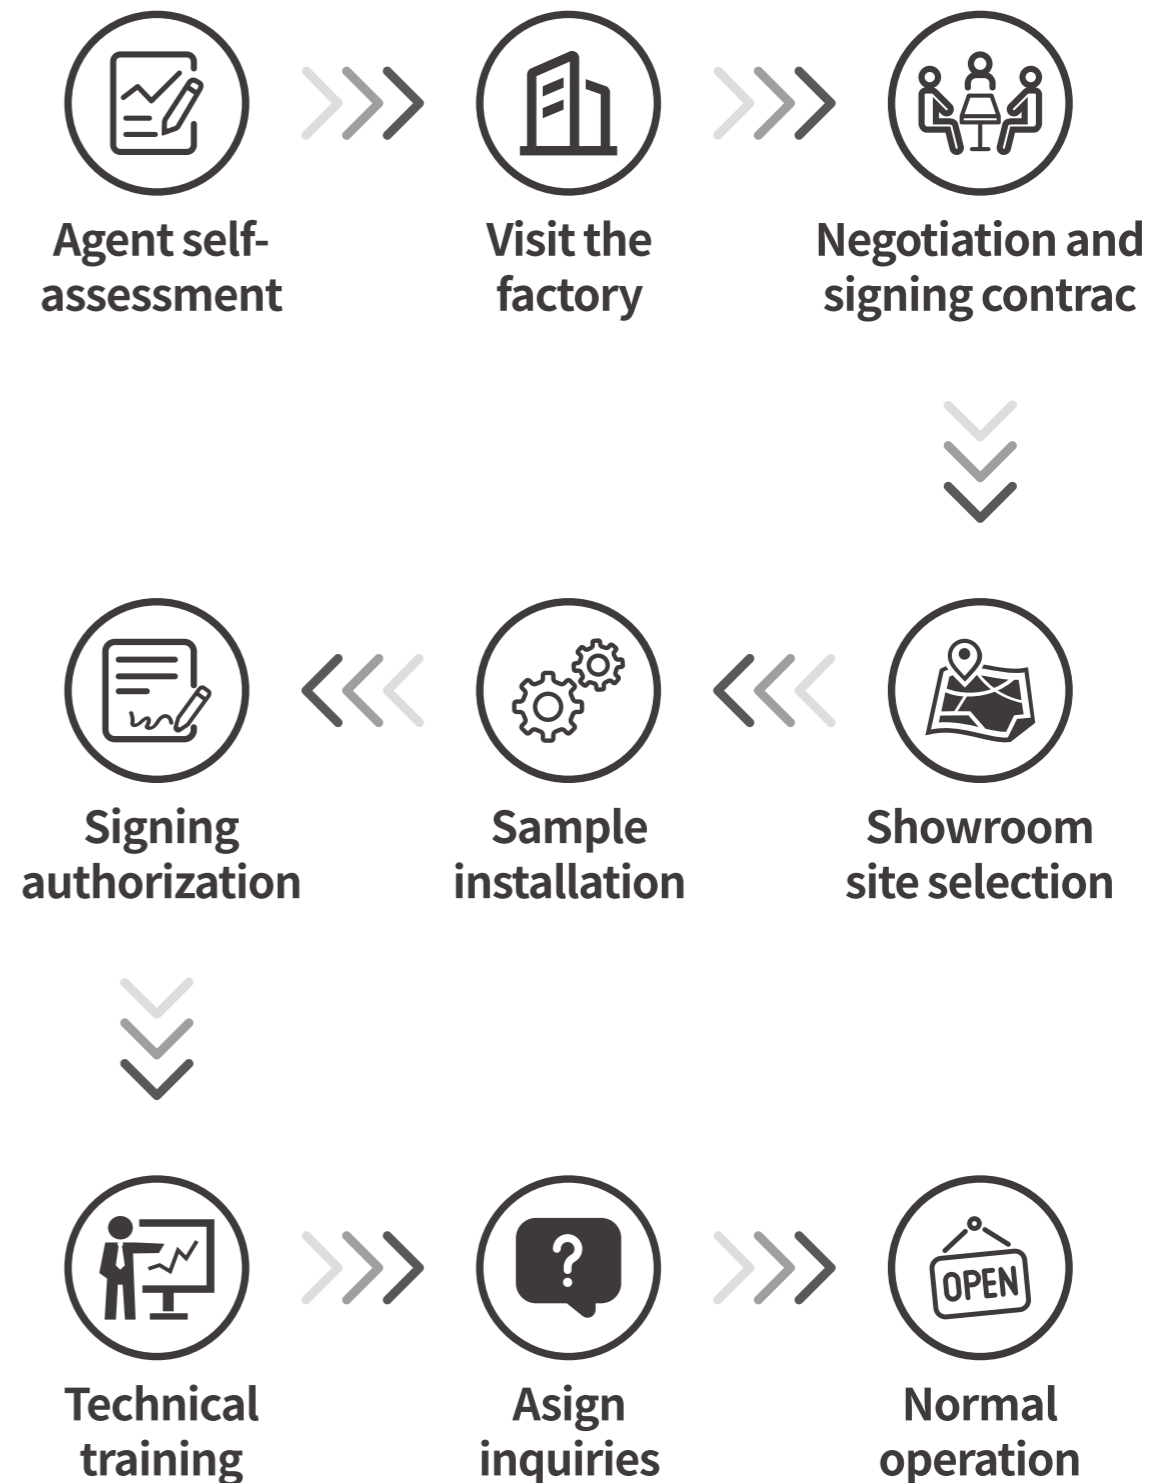

COMPANY ADVANTAGE

- ① Our products are in the blue ocean market with huge market potential and less competition, the customization quality is excellent with minor maintenance concerns.
- ② online and offline marketing, at present, the company's video marketing has exposure reaches 1 00 million times.
- ③ The core technology has been continuously upgraded and has cooperated with excellent supply chain systems at domestic and abroad to ensure that the products have always been at the leading level in the industry.
- ④ Modular design, fast and convenient for assembling. The professional technical team provides one-on-one installation guidance and technical training and carries out an all-around inspection before product delivery.

AGENT SUPPORT

- ① SUNRAY provides all-around service support to the franchiser in the form of brand authorization.
- ② Free franchiser cost. The company provides low-cost samples, and the sample cost can be refunded after Party B has reached the annual sales target.
- ③ Double protection of region and price, strictly implement the regional distribution system and protect the interests of franchisers. Ensure the seriousness, unity, and stability of the price.
- ④ The company has a number of excellent design teams. We can provide layout, rendering, video, and other professional training.

The best market is waiting for you to fly!

COMPANY PROFILE

SUNRAY OPENS A BEAUTIFUL LIFE FOR YOU

Foshan Yilumin Yangguang Intelligent Doors and Windows Co. Headquartered in Foshan, Guangdong Province. It is a company specializing in the research and development, production, sales and after-sales of intelligent integrated products such as mobile pool covers. SUNRAY has an independent sunroom production center and R&D and testing base to provide innovative and technically deep product solutions. The products are applied to private villa garden swimming pools. Patio mobile protectors, etc. We create a wonderful. Provide environmentally friendly and healthy living space for you and your family. Translated with www.DeepL.com/Translator (free version)

SUNRAY opens a beautiful life for you.

OUR ADVANTAGES

High Quality Surface treatment

The profiles are sprayed with fluorocarbon and powder, and optional fluorocarbon coating, with strong weather resistance, high end texture, and numerous color options. the polycarbonate board is designed with a double-sided anti UV design, blocking 99% of UV.

Intelligent Design

It can be customized according to the scene: arch, herringbone, arc, and sphere can be customized: One button system to open and close the sunroom, optional intelligent shading and lighting. The stainless steel sliding system makes the slides smooth with ease.

Structural Stability And Safety

The product is sealed and waterproof in three layers to ensure excellent water tightness and airtightness. Anti typhoon design, the product has undergone strict structural calculation: The panel adopts high-strength polycarbonate board, and tempered glass: optional double anti-falling track design to ensure super safety.

Safety and energy saving

24V safe DC voltage is adopted to ensure safety. It can be up graded to solar power supply. energy conservation and environmental protection.

Heat Insulation, Sound Insulation And Waterproof

Using polycarbonate with lower heat transfer coefficient, operable panels to improve ventilation: high sealing performance, good sound insulation, acoustic performance upto 35dB.

Prefabricated Design

Modular design, simple assembling: factory trail assembling before shipping.

Lifetime After-sale Service

7*24 after-sales service is available.

OUR SERVICE PROCESS

Customer first, be brave in innovation Sincere cooperation, mutual respect, and dedication.

- **Pre-sale:** a complete service process to win the customer's trust.
- **In-sale:** following the order production step by step.
- **After-sale:** 7 * 24 hours hot line standing by.

- **Response:** Timely reply, quickly arrange site visit.
- **Return visit:** Regular return visits to customers.
